

Lifetime Achievement Nomination Support - Magnus Thyvold

I found out today that CJSF is nominating Magnus Thyvold for a lifetime achievement award. I haven't worked that closely with Magnus but I have crossed paths with him on a couple of projects. The first was in 2002 when he helped to spearhead a Western Regional Conference for campus and community radio stations. He was extremely supportive on a logistical level to ensure that the conference was a success. In more recent years, we've crossed paths for joint community radio fundraisers and for the W2 multi-media project. I know that he has contributed to the NCRA in so many ways as a board member and technical support person. I have found Magnus to be consistently supportive in an amazingly concrete yet very humble way.

I would like to add my support for Magnus' nomination and I feel thankful for the work that he has contributed to our sector.

Sincerely,
Leela Chinniah
